INTRODUCTION.

In finishing the work upon Volume I, Early Records of Londonderry, N. H., it seems fitting that we should give here a few words of explanation and description. The sources from which we have drawn are Volumes I and II of the old town books. The first is devoted to records of town meetings, homesteads, and vital statistics, with a sprinkling of advertisements. About one hundred and seventy-two pages of this book are filled with vital statistics and records of the boundaries of homesteads and outlying lots. The time covered is from 1719 to 1726. Page 60 gives the Articles of Incorporation, followed by a list of the proprietors; then succeed records of roads and earmarks.

Reversing the book, it begins with the "First Planting," April 11, 1719, following with forty-six pages of political records. In addition to these are two pages of records and two of acts given out of chronological order. Volume I contains in all two hundred and twenty-two pages. Much of the writing is faded and difficult to decipher, and the book shows its age.

Volume II is written from both sides, with a change of the book at different places between these transcripts, as if the recorders tried to bring the different classifications of subjects together and miscalculated on the space needed by the parts. Thus the three or four classes are mixed and somewhat difficult to separate. The records in this volume extend from 1727 to 1770. This book contains about six hundred and fifty pages, and is in a better state of preservation than the first.

In order to bring the political records of the town together, to form a continuous narrative, we have thought best to

take these as we found them scattered throughout the books, omitting the transcripts of homesteads, roads, and vital records. To include them all, and in the order, or lack of order in which they were written, we should have had nothing complete or systematized so as to be of easy access. Another volume would comprise all of these and possibly bring the political records to about 1780, thus covering the colonial and revolutionary war periods. It would be difficult to imagine two volumes of early history of greater value.

It is only proper to say here that while the greatest care has been taken in deciphering the writing, which has often been read through a magnifying glass, there are places which seem impossible of correct transcription. In a few cases it has been thought safest to insert a question mark, thus (?). The use of capitals is frequently a mooted point, but an attempt has been made to be as uniform as possible. Wherever there has been a doubt the author or person writing the word has been given the benefit of the same.

In preparing the index it has been impossible when of the same name to discriminate between father and son. This is noticeably the situation with John Wallace. Usually, where no distinction has been given in the Records, the credit has been placed to that of the name which would indicate the senior member of the family. We have adopted the modern form of spelling the names in the index, with reference in some cases to the spelling as given in the Records.

In the body of the work we have tried at all times to reproduce the original in style, spelling, punctuation, and language as near as it is possible on the printed page. The copy and proof have been read as many as five times, by three persons, and is believed to be as correct as it is possible to transcribe a work of this kind. The editor is sorry to find that an error found its way in a footnote on page 157, and the reader is requested to supply *James* instead of *Robert*, where mention is made of the decease of Londonderry's first minister.

While the first settlers of Londonderry had received from Governor Shute, through their agent, the Rev. William Boyd,

assurance that they might have any portion of territory within his jurisdiction that they wanted, they came to this country with only a vague idea of the location of their future homes. About seventy-five landed in Boston August 4, 1718, and of these the following broke the wilderness of Nutfield in April, 1719: Rev. James McGregor, Alexander McGregor, Alexander Nichols, James Nichols, James Blair, Alexander Walker, Robert Boyes, Samuel Graves, Joseph Simonds, David Cargill, David Cargill, Jr., Archibald Clendenin, James Nesmith, James Clark, Elias Keyes, John Barnett, James McKeen, James Gregg, James Morrison, John Morrison, Allen Anderson, Thomas Steel, and Robert Weare. The seven last named went to Casco, Me., before coming to Londonderry. To this list of twenty should be added John Goffe, Esq., who acted as agent for the immigrants. It will be noticed that the list of twenty first settlers, as given upon page 22 of this volume, varies slightly from this; but this was made nine months after the first arrival. It is proper to say here that it is impossible to make out this list complete with certainty, though we have given the benefit of Mr. McMurphy's copy, which was made by him before the book had become as worn as it is to-day.

The earnest purpose of the first settlers of Londonderry is shown by the fact that within a year a two-story dwelling house was built for the minister. This house was standing not many years ago, occupied by John Morrison, a descendant of the Morrisons who figure in these Records. Within two years a meeting house was built, and less than two years later four school houses, all speaking in unmistakable terms of the sincere devotion to Christian principles of the builders. Within five years this church had two hundred and thirty members. Mills were erected within two years of their settlement, and their owners became the pioneer manufacturers in this country. The manufacture of linen was an important industry in their day. There were no public means provided for the support of the poor, and when one became reduced to poverty through sickness or misfortune he became an

object of uncertain charity, as shown by the votes referring to one.

The grant of the township, which had been named Londonderry in memory of the old home of the majority of the pioneers, was made June 21, 1722, by Gov. Samuel Shute to John Moor and one hundred and seventeen others, whose names appear upon page 41.

There is no gainsaying the fact that these new-comers were a fearless, hardy race. While determined efforts have been put forth to show that they were of Irish ancestry, there does not seem to be any sustained argument to show it. They were of Scotch descent, with a character founded during the stormy period of early Scottish struggles, confirmed and strengthened after their emigration to the north of Ireland in 1612 by their long and sanguinary conflicts against royal and ecclesiastical tyranny. Profound in their convictions, inflexible in their will and of strong sensibilities, they were indeed a hard people to crush. The story of sufferings and persecutions in religious and civil liberties had become such a stern influence in their lives, from generation to generation, it was small wonder if they displayed a continual spirit of obstinacy that seemed to contradict their love of liberty and fair play. Yet that very trait served to develop that faith in fair doing, which has so marked the race. The outspoken opinions of the individuals and the fearlessness in giving these expression is shown by the frequent protests made at the town meetings against the prevailing actions.

In one respect the pioneers of Londonderry were fortunate. They did not suffer at the hands of the Indians. This, too, during the period when that fearful uprising and bitter struggle between the races known as Lovewell's war occurred before they had fairly entered upon their settlement. This immunity from harm has been explained in two ways. One explanation accounted for this peace through a friendship existing between Rev. Mr. MacGregor and Marquis de Vaudreuil, the French governor of New France. It is even claimed that the former, owing to this friendly relation, had induced

the Catholic priests not to allow the Amerinds to molest the Scotch people, as they were different from the English. Another reason explains that a fair and acknowledged Indian title, secured through the Wheelwright deed, had gained for them the friendship of this race. It is possible both of these claims had some bearing upon the situation. But there are two other reasons more potent than these. The towns nearest to the rivers, which were the natural highways of the red men, were always the ones to suffer first and most. While Londonderry was not far removed from that important war-trail, the Merrimack, yet it lay out of the regular line of travel. This, coupled with the fact that the English settlers of Old Dunstable and Exeter were constantly beating back the enemies through their scouting parties, kept the Indians from entering their territory. Again, the Scotch had not been in this country long enough to have formed any enmity to the aborigines, especially when in order to do this they must ally themselves with a people against whom they had long cherished a bitterness of heart. One man from Londonderry, Samuel Moore, was with Lovewell in his second expedition.

During King George's War, 1744-1748, however, we find Londonderry beginning to participate in the struggle. Early in the summer of 1746 Capt. Samuel Barr, at the head of seventeen men, marched through the wilderness of the "North Country." Later in the season Capt. Andrew Todd went with twenty-three men to Canterbury, hoping to find some of the enemies and put them to rout. Some of the followers under these leaders were from Londonderry, but neither of the bands seemed to have met with foes, who had become too wily to be caught napping as they had in the days of Lovewell. Between the homes of these hardy pioneers and the headquarters of their enemies lay a wide belt of wilderness, the White Mountain range forming a natural barrier behind which the Indians found a common resort with the French. Thinking to meet them upon their own ground, Governor Shirley planned his Quixotic campaign, which has

passed into history as "The Expedition to Canada." Londonderry furnished her share of the soldiery of this march into the wilderness as far north as the shore of Lake Winnepesaukee, where the heavy body of foot soldiers rested, hunted, and fished without finding an Indian. While this was being done the Indians were active where they could be the most effective, and on the whole they got the best of the border warfare; but the day of reckoning came only a few years later. Several Londonderry men were with Major Rogers and his Rangers during the Seven Years' War, though I do not think any great number were in the service. Their activity was most noticeable in the American Revolution, and at Bunker Hill, Bennington, and elsewhere they performed heroic parts.

It seems proper to insert here the Muster Rolls of the men employed in His Majesty's service, scouting in the woods, by order of the Governor, under Captains Barr and Todd, all of whom I think were from Londonderry.

Captain Todd and his men were scouting at Canterbury and vicinity fourteen days from the 14th of July, 1746.

The town was divided into two parishes by an act of the court approved February 25, 1740, after the matter had been agitated by the town for six years, and a vote taken December 1, 1735, but which was strenuously opposed by a good-sized minority. Petitions and counter petitions followed, until at last it was decided to make the division.

The southern portion of the grant was set off into a parish to be called Windham, February 12, 1742, the first meeting of which was called March 8, 1742, by Robert Dinsmore, Joseph Waugh, and Robert Thompson.

September 3, 1751, another part was severed from the original body and joined with a tract from Chester and ungranted land about Amoskeag falls and incorporated under the name of Derryfield.

A portion of Londonderry was annexed to Nottingham West, now Hudson, March 6, 1778.

Though we are passing the limit of the period covered by the following records, it may be well to state here that Windham received the estates of several persons from Londonderry September 26, 1777. November 26, 1778, Samuel Clark and

his estate were annexed to Windham. The line between the towns was not established by the courts until November 22, 1782. After this, December 25, 1805, Windham received another portion of Londonderry.

July 2, 1827, the remaining township was divided by an act of the legislature, the east half incorporated under the name of Derry.

MODERATORS, 1719-1762.

The moderators for this period acting at the annual meetings were as follows: James McKeen, 1719-1721; James Gregg, 1722; James Nichols, 1723; Robert Boyes, 1724; John Blair, 1725; Robert Boyes, 1726-1727; James Gregg, 1728; James McKeen, 1729; James Nesmith, 1730; James McKeen, 1731; Robert Boyes, 1732; Robert Wear, 1733; Robert Boyes, 1734-5; John Blair, 1736; Nathaniel Weare, 1737; Andrew Todd, 1738; Robert Boyes, 1739; John Morrison, Sen., 1740; Andrew Todd, 1741; Hugh Wilson, 1742-1748; Robert Boyes, 1749; Hugh Wilson, 1750-1752; John Mitchell, 1753; James Clark, 1754; Samuel Barr, 1755; James Clark, 1756; Andrew Todd, 1757-1762.

The people of Nutfield do acknowledge with all gratitude
the obligation they are under to the above mentioned Gentle-

men particularly to the Honourable Co^l John Wentworth Esq Liet. Governour of Newhampshire. They remember with pleasure that his honour on all occasions shewed a great deal of civility and real kindness to them being strangers in the Country and cherished the small beginnings of their Settlement, and defended them from the incroachment and violence of such as upon unjust grounds would disturb their Settlement, and always gave them favourable ear and easy access to the Government and procured Justice for them and established order and promoted peace and good agreement amongst them, giving them always the most wholesome and Seasonable advice both with respect to the purity and Liberty of the Gospel and the management of their secular affaires, and put Arms and Ammunition into their hands to defend them from the fears and dangers of the Indians, and contributed liberally by his example and influence to the building of a House for the worship of God So that under God we owe him for the Patron & Guardian of our Settlement and erect this Monument of gratitude to the name and family of Wentworth to be had in the greatest veneration by the present generation and latest Posterity.

*To the readers who may not understand the meaning of this term, which appears frequently in the records of those days, a brief description of the financial situation during those periods may not be out of place. Various expedients were resorted to by the colonists in order to effect means of business intercourse. The General Court of Massachusetts in 1690 issued what were known as "Bills of Credit" to the amount of seven thousand pounds. These bills circulated also in New Hampshire, and soon beginning to depreciate in value caused considerable hardship among the people. Late in 1709, in trying to meet the obligations incurred by border warfare, New Hampshire issued bills of credit to the amount of three thousand pounds. These were to be redeemed in five years, and this was the first emission of paper money in New Hampshire. In 1714, the year of their maturity, there was another emission, followed by others in 1717, 1722, 1724, 1725, 1726, 1727, 1729. These bills depreciated so rapidly in value that in 1741 the Government was able to pay only one fourth of the value expressed on their face, and it was more than they were worth on the market.—EDITOR.

This mansion has since become known as the Warner house, and it is claimed has the distinction of having been the first house in New Hampshire to have lightning rods, put on under the personal instruction of Dr. Benjamin Franklin. Captain MacPheadris was of Scotch ancestry, and was a pioneer in the manufacture of ironworks in this country, beginning his first operations upon the Lamprey river. He married Sarah, one of the sixteen children of Lieut.-Governor John Wentworth, and his daughter married Hon. Jonathan Warner. Captain MacPheadris died in 1729. He was greatly interested in church work, and left several bequests for the benefit of the Presbyterian church. There seems to have been a strong friendship between him and Captain Cargill, and possibly a relationship.—EDITOR.

*Rev. William Davidson, a native of Ireland, who married the widow of Mr. Thomson, succeeded that divine as pastor of the East Church in 1739, continuing in that capacity for fifty years, or until his death, February 15, 1791, in his eightieth year. His wife outlived him five years.

This year, 1739, the General Court invested sundry persons in the westerly part of the town with parish privileges, and it became known as the "West Parish." Rev. David MacGregor, son of Rev. James MacGregor, the first minister of the town, became the minister of this new society. Mr. MacGregor had been a pupil under Rev. Matthew Clark, his father's successor, and he was an eloquent preacher, much beloved by his parishioners. But religious dissensions had already crept in, which lasted for nearly forty years. Mr. Parker in speaking of this says:

"The site first selected by the West Parish and a house erected there was known as West Hill. But a number of families residing in the easterly part of the town being dissatisfied with Mr. Davidson's ministry, and particularly attached to Mr. MacGregor, as he was the son of their former pastor, and more evangelical in his doctrinal views, and a more talented preacher than Mr. Davidson, united with the newly formed parish, and thus occasioned a change in the location of their house of worship from the Hill, so called, to Aiken's Range." More than this it brought about an unhappy condition of society. This move caused about forty of the families of the West Parish to join the other, while as many families left the East Parish to become a part of the rival church. This unfortunate division not only severed friendly and social ties, but it awoke bitter animosities between the members of the two religious societies, causing even the pastors to ignore each other.—EDITOR.

*This vote has reference to the Louisburg expedition. The first troops from New Hampshire, that started several days before the Massachusetts men left Boston, sailed from Portsmouth March 23d O. S., or April 4th N. S., 1745. This regiment of over five hundred men was under command of Col. Samuel Moore of Portsmouth. Dr. Matthew Thornton of Londonderry accompanied this body of soldiers as surgeon. The attack of the New England troops, in conjunction with the British seamen, was made upon June 17 of the same year, and upon June 20th the following men enlisted from Londonderry, serving during the rest of the campaign among the reinforcements sent to aid the first troops, all doing duty under Colonel Moore: John Adams, John Carter, Robert Cunningham, Andrew Logan, John McLaughlin, James McLaughlin, Samuel Miller, John Miller, Adam Gault, Patrick Gault, privates; Robert Kennedy, sergeant; Hugh Montgomery, ensign; Daniel McGregor, captain. It is possible others went from Londonderry, for there is no complete record to show the facts.—EDITOR.

*The financial problem at this period was even more difficult of adjustment than at the present time. Mediums of exchange were scare, and the paper money issued by the courts of Massachusetts and New Hampshire depreciated in value very rapidly, and in 1741 the government was able to pay only one fourth of the face value of the "Bills of Credit," as they were known. Government undertook to remedy this evil by issuing in 1742 new bills, giving the year and value according to the old and new rates. These became known as "New Tenor," while previous issues were styled "Old Tenor." In order to meet the expense of the Louisburg expedition another emission was made in 1745, which created further confusion in the money market. Parliament then undertook to stop the colonial courts from issuing further paper money. Circumstances compelled them to make three issues during the French and Indian War, known as "New Tenor or Crown Point Bills." Fifteen shillings of this paper were equal to one dollar in specie. These bills soon depreciated, and finally sterling money became the standard in value, paper passing as currency regulated in its valuation by the price of silver.—ED.

*The first settlers of Londonderry, as well as introducing the cultivation of the potato in this country, were the pioneer manufacturers of linen cloth, which for many years was a leading source of profit in New England. Mills were erected within two years of the coming of these sturdy builders of a new town. In this enterprise, however, they met with difficulties from unscrupulous parties and were forced to seek the courts for redress and protection, as witness the following action:

In the House &c May 7th 1721.

Whereas there are great frauds and deceit practised by p'sons travelling in this Province by selling of Foreign Linens, under pretence they were made at Londonderry in this Province, which tends to the Damage of those who really make and sell the Linen in Londonderry, and to evade the Act made by this Govern^t agt Hakwing & Pedling, &c.; For prevention of which, & for encouraging the manufacturing Linnen in said Town,

Voted, That an Act be drawn up authorizing the said Town to make choice of a suitable p'son to Seal all such Linen as shall be made in the said Town, and to have a seale with the name of the Town engraved on it, & authority to such sealer (if Suspect y^t 'twas not made in the Town) to adm^r an oath to the p'sons that brings Linen to be sealed, that it was bona fide made in said Town.—ED.

*This act of the town relates to a difficulty that one of her most respected citizens had encountered. In 1749 Jotham Odiorne, of Portsmouth, a wealthy man and a man of considerable political prominence, incurred the enmity of parties unknown to him. These men sent him several threatening letters, and finally declared that unless he deposited three hundred pounds "at the westerly end of the long bridge, which is between Kingston and Chester," within two days his buildings would be burned and his life jeopardized. Hoping to discover the identity of the writer the money was deposited as directed and three men stationed near by to watch for the other.

Before these men appeared to get the concealed money John Mitchell, on his way to Portsmouth, reached the place, and, stopping his horse, dismounted near the spot where the money had been deposited. Thinking they had discovered the culprit, the men employed by Mr. Odiorne arrested Mr. Mitchell, and, in spite of his protestation or ignorance in regard to the affair, bore him to Portsmouth, where he was placed in jail to await his trial. Public sentiment was against him, and even the lawyers refused to defend him. In this dilemma Rev. Mr. David MacGregor, pastor of the West Parish church, and third son of Rev. James MacGregor, convinced of the innocence of his parishioner, volunteered to aid him. If lacking a lawyer's legal tact to look after the interests of his client, Mr. MacGregor made an ingenious and able defence in behalf of the prisoner. Still he was unable to clear him, and he was convicted and sentenced to one thousand pounds and cost. Not being able to pay this, he was kept in prison. Still the faithful Mr. MacGregor did not desert him, and through his efforts largely he was finally released on a bond. This had to be renewed frequently, and caused much trouble and expense before Mr. Mitchell was at last honorably acquitted, though there is nothing to show that he was ever able to obtain any redress for the wrong done him.—ED.

*The reason for this election was the vacancy in the office of representative caused by the sudden death of Squire John McMurphy while attending to his duties in that capacity. The following entry upon page 350, Records of Londonderry, Vol. 2, gives further official facts:

John MacMurphy Esq^r Justice of the Quoram Departed this life September the 21st 1755 on Sabath Day about twelve o;Clock on Said Day at Portsmouth and was Carried to London Derry upon Teusday and was Buired upon Wednesday the 24th Instant about four of the Clock in the afternoone at the old Burieng Place in this town With an Exterordinary Compenay; Aged about Sevinty three years.

Squire John McMurphy, as he was known, was one of the most active and influential members of the little band of pioneers breaking the wilderness of Londonderry and laying the foundations of the new government. A ready writer, he was clerk of the town for eleven years. He received the appointment of justice about 1721, holding the office until his decease. He was elected selectman in 1722, and he was the first representative to the general court, holding that office for eleven years, dying, as we have seen, while serving in that honorable, capacity.—EDITOR.

*Petition of the Inhabitants of Londonderry for a Charter,
21 Sept., 1719.*

The Humble petition of the People late of Ireland now settled at Nutfield to his Excellency the Governor and General Court assembled at Portsmouth Sep^t 23^d 1719.

Humbly Sheweth, That your Petitioners having made application to the General Court met at Boston in October last and having obtained a grant for a Township in any part of their unappropriated lands took encouragement thereupon to settle at Nutfield about the Eleventh of Aprile last which is situated by Estimation about fourteen miles from Haverel meeting House to the North West and fifteen miles from Dracut meeting House on the River merimack north and by East. That your petitioners since their settlement have found that the said Nutfield is claimed by three or four different parties by virtue of Indian Deeds, yet none of them Offered any disturbance to your petitioners except one party from Newbury and Salem. Their Deed from one John Indian bears date March the 13th Anno Dom: 1701 and imports that they had made a purchase of the said land for five pounds, by virtue of this deed they claim ten miles square Westward from Haverel line and one Caleb Moody of Newbury in their name discharged our People from clearing or any wais improving the said land unless we agreed that twenty or five and twenty families at most should dwell there and that all the rest of the land should be reserved for them.

That your petitioners by reading the Grant of the Crown of Great Britain to the Province of the Massachusetts bay, which determineth their northern line three miles from the

River merrimack from any and every part of the River and by advise from such as were more capable to judge of this Affair, are Satisfied that the said Nutfield is within his Majesties Province of New Hampshire which we are further Confirmed in, because the General Court met at Boston in May last, upon our renewed application did not think fit any way to intermeddle with the said land.

That your petitioners therefore imbrace this opportunity of addressing this honourable Court, praying that their Township may consist of ten miles square or in a figure Equivalent to it, they being already in number about seventy Families & Inhabitants and more of their friends arrived from Ireland to settle with them, and many of the people of New England settling with them, and that they being so numerous may be Erected into a Township with its usual Priviledges and have a power of making Town Officers and Laws, that being a frontier place they may the better subsist by Government amongst them, and may be more strong and full of Inhabitants:

That your Petitioners being descended from and professing the Faith and Principles of the Establist Church of North Britain and Loyal Subjects of the British Crown in the family of his Majesty King George and encouraged by the happy administration of his Majesties Chief Governour in these provinces and the favourable inclinations of the good people of New England to their Brethren adventuring to come over and plant in this vast Wilderness, humbly Expect a favorable answer from this honourable Court and your Petitioners as in duty bound shall ever pray &c, Subscribed at Nutfield in the name of our people Sep^t y^e 21st 1719.

CONCERNING THE CLAIM TO NUTFIELD.

A Petition of *Joseph Pike*, in behalf of himself and others, that Purchased a Tract of Land of *John an Indian*, Heir of *Penicook*, in the year 1701. which Tract is Ten Miles Square, Lying to the Westward of *Haverhill*. Presented to the House, and Read

Shewing That sundry *Irish* People have Settled thereon and call it *Nutfield*.

Praying, That the said Purchasers may have the said Tract Confirmed to them, or so much as falls within this Government.

Ordered, That Mr. *Cooke*, Capt. *Gardner*, and Col. *Dudley*, be a Committee to consider of the said Petition, and of the affair of *Nutfield*, and make a Report to the House what they think proper to be done.

[*Mass. House Journal*, Nov. 15, 1720.]

Mr. *Cooke* from the Committee appointed, made Report on the Petition of *Joseph Pike*, Committed the 15th Currant, which was accepted by the House, And accordingly

Ordered, That whereas *James MacGregor*, *James MacKeen*, and *James Gregg*, on behalf of themselves, and sundry others, by their Petition to this Court, at their Sessions in *May*, 1719. set forth that the Court in *October* foregoing, Granted them a convenient Tract of Land, of six miles square, and appointed a Committee to Lay it out for them in the *Eastern* Parts; and upon further Inquiry the Petitioners found a more convenient Tract of Land, about fourteen Miles from *Haverhill*; and that they had begun a Settlement there, and had increased to the Number of Fifty Families; and therefore *Pray'd*, that in case the Land should Lye within this Government, they might be formed into a Township, and till then, quietly possess and improve the said Lands unappropriated, free and clear from any Disburse. Which Petition was rejected.

And that some time since they have applied to the Government of *New-Hampshire*, and are made by them a Township, and have Civil Officers among them, for Governing their Affairs; which is a great and open breach upon the Jurisdiction of this Government, and may tend to deprive them of their just Rights, and Proprieties, if not speedily prevented.

And whereas Joseph Pike, on behalf of himself, and others Inhabitants of this Province have made application, for a Grant of those Lands for a Township.

Wherefore Resolved, That Capt. Gardner, Capt. Kimball, and Mr. Sanders, be Desired and Impowered (taking with them the Sheriff of the County of *Essex*; and such a Number of Men from *Haverhill*, or those Parts as may be needful) to Repair to the aforesaid Land, and view the several Houses, and other Improvements that have been of late made by those people thereon; and report the same to this House, & at the same time signifie to the said *James MacGregor, James MacKeen*, and *James Gregg*, That they without delay come to the Court, and render the Reasons that induced them to proceed so far in their Settlements, without the leave or consent first had of the General Court. That this Court may take such further steps in this Matter, as they shall then think fit.

[*Mass. House Journal, Nov. 17, 1720.*]

A Message from the Board, by *John Wheelright*, Esqr. and Mr. Secretary Willard. *Viz.*

His Excellency observing a Mistake in the Votes of this Honourable House, of *November 17.* relating to *Nutfield*, in these words, *And that some time since they have applied to the Government of New-Hampshire, and are made by them a Township*, has directed us to acquaint you, that upon application made to him, and the Government of *New-Hampshire*, That they might be made a Town; his Excellency absolutely refused; giving them for reason, that it was doubtful, in which Province the Lands they were Settled on would fall.

And Col. *Wheelwright* acquainted the House, That he was present when the *Nutfield* People, Address themselves to the Governour and Council at *New-Hampshire*, to be made a Town, and that they were denied.

[*Mass. House Journal, Dec. 2, 1720.*]

PETITION FOR BILLS OF CREDIT, &c.

To his Excellency the Governour and Honourable Council of New Hampshire in General Court assembled at Portsmouth Apr. 18th 1721.

The humble Petition of the People of Nutfield,

Humbly sheweth, That your petitioners are sensible of the Goodness of God and Care and Protection of his Excellency the Governour and Council of New Hampshire in supporting and defending their plantation for which they render them unfeigned Acknowledgments of duty and respect,

That your Petitioners are in a Growing condition having already Exceeded the number of three hundred and sixty souls of which there are one hundred and thirty Effective men capable to bear Arms for his Majesty King George, as his Excellency the Governour and Council may think fit to Employ them.

That altho' your petitioners have Exhausted their money in Subduing the wilderness yet they are Carrying on all the parts of good Husbandry and building a House for the worship of God;

That your Petitioners want to be incorporated, that the affairs of their settlement may be managed with greater advantage.

May it therefore please your Excellency and your Honours to give order that our people which are already so numerous may not be too much Confined in respect of room by any newer settlement in our Neighbourhood, that Bills of Credit May be lent out unto them upon due Security in some term of years to be paid again without interest in Hemp and other

RELATIVE TO BOUNDARY DISPUTE.

House of Representative.

Wednesday May the 10th A. D. 1732.

The Committee bro't in an Answer to his Excell^{ys} Speech, which was read & voted, accepted and sent up in the words following, viz.

May it please your Excellency

We beg leave to assure your Excell^y, that we are now met to attend his Maj^{ties} service in this Sessions and to do every thing that may tend to his Maj^{ties} service and the Prosperity of his good subjects within this Province whom we represent; and this we shall do with chearefullness, and hope with unanimity, having no sinister ends or double views, and hope there will be no struggles nor contentions.

As to the affaire of the Lines, we apprehend this Govern^t has done every reasonable thing to accomodate that matter in a Peace between the two Govern^{ts}, and in order to do this have exceeded his Maj^{ties} Instruction to your Excell^y in that affair; tho' this House thinks it absolutely necessary that something should be speedily done in compassion to the Poore People that inhabit neare the controversy; for sundry suits have been commenced ag^t the People of Londonderry and Kingstown, and the people carried into the county of Essex in the Mass^a Govern^t to be tried for Trespass comitted at least twelve miles north from Merrimack, and this at their last Court at

Ipswich; and those suits upon the controverted lands have already cost one of those Towns, by a moderate Computation, at least Eight hundred pounds: Wherefore we humbly pray that your Excellency would put a stop to these proceedings until the Lines shall be settled at home, which we hope will not be long, seeing it could not be accomodated here; and to this end, this House did empower Capt. John Rindge to represent that affaire to his Maj^{ty} in Council and [p. 368] humbly pray his decision.

TWO SETS OF TOWN OFFICERS CHOSEN, 1737.

To His Excellency Jonathan Belcher Esq^r Governour & Command^r In Chief In and over His Majestys Province of New Hamp^r the Hon^{ble} His Majestys Council, and the House of Representatives in General Court assembled—

The Petition of Sundry the Inhabitants of the Town of London-Derry in the Province of New Hamp^r—Most humbly shews—

That It hath been the Custom in said Town, ever since they have acted as a Town, at their General Town Meetings in March yearly to allow all persons that payed rates in said town to Vote in chusing town officers until at the town meeting held in said Town on the fifth day of March Instant when the Select men for the last year produced a list of Persons names who the select men said should be voters only.— That notwithstanding a Considerable majority of the persons present proceeded according to the usual method of said Town to Chuse a Moderator, and then to chuse a Town Clerk, selectmen and other town officers, and that the two Justices in said Town refused to swear any of said officers so chosen, and that a minor part of the persons then present in a by-part of the meeting-house made choice of another set of Town officers, which last sett the Justices in said Town have since sworn, which has already occasioned much disorder strife and confusion in said Town, and will We fear tend to the utter ruin and destruction of the peace and good orders of said Town unless something be done by the General Court to redress our Grievances.—

Therefore Your Petitioners most humbly Pray Your Excellency the Hon^{ble} the Council and House of Representatives In your Great wisdom to ratify & Confirm what was done at the last meeting in said Town according to the former usage and Customs of said Town, or to Explain that paragraph in the Act for regulating Townships, choice of Town officers and setting forth their power relating to the qualification of Voters in said Town meetings, and order that There be another Town meeting in said Town to Chuse Town officers, and your Petitioners as in Duty bound, Shall Ever Pray—

PROPOSALS FOR PEACE, 1737.

The civil and religious quarrels anent the division of the town waxed so bitter and vigorous that we find eighty of the leading citizens making proposals for peace.—EDITOR.

To our Christian friends and Brethren of y^e old Congregation in London Derry; proposals of peace
Brethⁿ

It is a lamentable Truth, Too evident To be denyd, y^t the Scandalous divisions, both in Civils and Ecclesiasticks, which have Too long Subsisted among us, are a stain to our holy profession; that they have a Natural tendency, to provoke God; to procure Judgments and to render us a hissing a reproach and a byword to our Neighbours and that these are aggravated from our circumstances, we being Strangers which ought to excite us to a stricter amity and unity among our Selves.

but then Seing it is not Complaints & lamentations only, but proper remedies also, that are Necessary to effect an accommodation among us; we therefore out of a Sincere and Disintrested view To peace, do Chearfully & unanimously make y^e following proposals.

Proposal 1st whereas it has been (as we are Inform'd) Suggested or Insinuated, that The design of us who belong to the New Congregation, is To draw away the Strength of y^e old Parish, and Consequently To build upon its Ruins; we propose that we who are already Incorporated in the new parish, with Those who are at present willing to joyn us, who in all are not one half of y^e town, will oblige our Selves to maintain the Gospel in Our own Congregation, without demanding any help from our Neighbours in the Other parish; or if this will not Satisfie, we propose that the Salary's of both Ministers be assess'd in common, and equally levyd from y^e whole town in general.

As to the Ecclesiastick part of our divisions, we wou'd be heartily glad that this also were Accomodated: that which renders a reconciliation in this particular more difficult, is the want of a Synod, To whose Judgment all partys Consonant To presbyterian principles behoof'd to be Subject: but Since we have not this Superior Judicature To have Recourse To, in this part of the world: Since appeals to a foreign Church, in our present Scituation and Circumstances is Impracticable even in the Opinion of Several of y^e ministers of y^r own party, whose dissent against Such Appeals, is extant in y^e minutes of the presbytery; and Since there is a Schism among the Members of presbytery, So that they being partys cannot be admitted as proper Judges, what must be y^e Consequence, as Things are thus Circumstanced, but that Except Some other methode be found out, Our uncomfortable Debates be protracted time without End: for Remidy wherof we propose.

Proposal 2^d that a number of ministers, of y^e Congregational perswasion, Such as you and we can mutually agree upon; Shall be Invited To meet on this affair; and that haveing heard the whole of what is To be Said Pro and Con by the Respective partys, they Shall then draw up in writing their Result: whether Sd Result Shall be finally deciseive or Not, we leave to be Considered. Note, y^e S^d Ministers Shall be Obligated to judge the affair agreeable to presbyterian Rules. We for see no objection of any Seeming weight that can be made against this last proposal but Such as follows; to which by way of anticipation we Return Some Answer.

Objection 1st the persons whom you propose as Judges are of a diffarent perswasion; we Answer by Concession we grant they are So, but the Difference is not So wide, but that Some of y^e greatest Divines of y^e presbyterian perswasion, and even of those who have wrote against them, particulerly the judicious M^r Rutheroord, has Adress'd them with the friendly Epithet of D^r Brethren; for our part we firmly believe, that Notwithstanding the Difference in principle, there are To be found among them, Many men, of Learning, Goodness, Candor, Impartiality, and Every qualification, which may Render them very fit Judges in this affair.

Objectⁿ 2^d this proposal if Complied with, wou'd cast a Reflection on the Presbyterian Government, as if it were not Sufficient to answer all the Ends of Governm^t, without being beholden To another perswasion: we Answer y^e objection has no weight in it; for 1st let it be Considered that presbyterian Govern^t Consists in a Subordination of Judicatures, The Inferior To the Superior; Now if we had a Synod To apply too and yet this Remidy were Necessary, it wou'd then Argue a Defect in the Constetution; but otherwise the Objection is of No weight. 2^{dly} let it be Considered, that the judges we propose, tho of another perswasion, are bound to judge by Presbyterian Rules: the Salutary Medicin is Still the Same, though the Application be made by Other hands.

we are far from being So preemptory or wedded to Our own proposols, as to Say that these and these only are the terms on which we will be at peace; but these Are what we look on as Resonable and Christian; and if you think them Not Such, we wou'd be glad to hear Some from you that are more So.

In the Conclusion we beseech you Brethren, Seriously To Consider that 'tis your as well as Our Duty if it be possible, as much as lies in you, To live peacably with all men. to Seek peace, and pursue it. to lay Down your Gift at the Alter, and go be Reconcil'd with your Brother: and that Ecept we Do so Our Religion is Vain, that tho we had all faith to y^e Removing of mountains and have Not Charity, we are as A Sounding Brass and tinkling Cymbal. and that he who Says he loves God and hates his Brother is a lyar: let the Serious Consideration of these Awful and weighty truths, leave Such a deep Impression on us, that we may be willing for peace, on the most Reasonable terms; and let us look on All Such as wou'd diswade us from hearkning to Reasonable proposals of accommodation, to be publick Nusances, the Bane of Civil Society, y^e obstructers of Brotherly love, and the Active Instruments of Satan, and as Such let us Avoid them with detestation. we are your friends and Brethren in Christ.

PETITION OF INHABITANTS OF OLD AND NEW PARISHES OF LONDONDERRY.

To his Excellency Benning Wentworth Esq. Governor and
Commander in chief in and over his Maj^{ties} province of New
hampshire the Honourable his Majesties Councill for said
Province and the house of Representatives in Generall As-
sembly Convened.

The Petition of Sundry of the Inhabitance of Londonderry
in the province of New hampshire belonging to the old and
new parishes humbly Sheweth.

That whereas in february in the year 1739-40 there was a
new parish sett off in this town by the Generall Court, Grant-
ing Liberty to fourty famelyes that lived within the Bounds of
the said new parish still to Remain members of the old parish
with their estates and at the same time granted Liberty that
fourty famelys that lived within the Bounds of the old parish
Should become members of the new parish With their estates
if they saw cause.

Which accordingly was performed and that still there was some few families and single persons in Both parishes that was not contented because they were obliged to pay there parish Tax where they properly belonged and went to the contrary parish to the publick worship, and that whereas freedom and Liberty is most to be Desired especially in Religious affairs and whereas every christian ought chiefly to study those things That will be most for the advancement of the Redeemers Kingdom out of a consious concern for those persons that they might obtain their freedom and liberty as well as the Rest of the people of this town the Two parishes chose each of them a committee to see to accomodate that affair who is the Subscribers to this petition and was legally chosen for Said End, and accordingly we meet and after some conversation about the affair we came to a mutuall agreement that all persons who had a mind to become members of the new parish should on a certain day then appointed meet the two committees and sign their names to said agreement which is too tedious here to Insert and those that had a mind to become members of the old parish had the same liberty and accordingly at the Day appointed the people came and signed their names only there is a saving clause in said agreement that we did not Intend any Infringement on the Court Act Relating to the fourty families belonging to each parish: Wherefore your petitioners humbly prays your Excellency the Honourable the Councill and house of Representatives that you would be pleased to pass an act to establish this our agreement, & that those persons, with their estates who hath already signed their names with us may become members of the old and new parish as they have signed, and that you would be pleased to Incorporate the new parish into a town & have priveledges as other towns except it be about highway work and taking the Invoice for the payment of the publick tax. Likewise that you would be pleased to explain the former act Relating to the fourty families that is to say whither on the sale of any of those fourty estates the purchaser shall be obliged to pay his parish tax where the

estate was signed unto, or whither he may be at his Liberty to go to the other parish if he sees good. Also that all tran-
gent persons who shall come to sojourn in this town shall
have liberty to sign there names in three months after there
arrivall with the Selectmen of the parish where they design
to Belong and shall be oblidge to pay there taxes there and
your petitioners as in Duty bound ever shall pray.
